

Jonah Kudler-Flam

Contact	Email: jkudlerflam@ias.edu Office: 267 Bloomberg Hall, Institute for Advanced Study, Princeton, NJ 08544 Office Phone: (609) 734-8024:	
Employment	<i>Marvin L. Goldberger Member</i> , Institute for Advanced Study, Princeton, NJ	2022 - 2027
	<i>Affiliated PCTS Postdoctoral Fellow</i> , Princeton University, Princeton, NJ	2022 - 2025
Education	University of Chicago M.S. in Physics Ph.D. in Physics Advisor: Shinsei Ryu	2017 - 2022
	Princeton Univerity Visiting Student Research Collaborator Trailing Student	2021 - 2022
	Massachusetts Institute of Technology Visiting Student Host: Hong Liu	2020 - 2021
	Colgate University A.B. in Astronomy/Physics <i>magna cum laude</i>	2013 - 2017
	King's College London Study Abroad Student	2016
Publications	1. B. Ouyang, J. Kudler-Flam, “Logarithmic negativity typically equals exact entanglement cost” arXiv:2607.01320 [quant-ph]. Under Review. 2. J. Kudler-Flam, E. Witten, “Wormholes and Averaging over N” arXiv:2605.15180 [hep-th]. 3. M. S. Klinger, J. Kudler-Flam, G. Satishchandran, “Generalized Entropy is von Neumann Entropy II: The complete symmetry group and edge modes” arXiv:2601.07910 [hep-th]. Under Review. 4. Akash Vijay, Ayush Raj, J. Kudler-Flam, Benoît Vermersch, Andreas Elben, Laimei Nie, “Analytically Continuing the Randomized Measurement Toolbox” arXiv:2511.02912 [quant-ph]. Accepted to Physical Review Letters. 5. J. Kudler-Flam, E. Witten, “Emergent Mixed States for Baby Universes and Black Holes” arXiv:2510.06376 [hep-th]. Under Review. 6. A. Herderschee, J. Kudler-Flam, “Stringy algebras, stretched horizons, and quantum-connected wormholes ” arXiv:2510.01556 [hep-th]. Under Review. 7. A. Blommaert, J. Kudler-Flam, E. Y. Urbach, “Absolute entropy and the observer’s no-boundary state” arXiv:2505.14771 [hep-th]. Accepted To Journal of High Energy Physics. 8. J. Kudler-Flam, V. Narovlansky, N. Sopenko, “Optimal bound on long-range distillable entanglement ” arXiv:2504.02926 [quant-ph]. Phys. Rev. Lett. 135, 060403.

Invited Talks

1. Kavli Institute for Theoretical Physics, Santa Barbara, CA Jun. 2026
High Energy Theory / Gravitation Seminar
Wormholes and Averaging over N
2. Bernoulli Center for Fundamental Studies, EPFL, Lausanne, Switzerland May 2026
Observers, wormholes and complex saddles in cosmology
Progress report on large-N algebras and wormholes
3. Simons Center for Geometry and Physics, Stony Brook, NY May 2026
Workshop on DSSYK Model: From Gravity to Many-Body Quantum Chaos
Wormholes and Averaging over N
4. Stanford University, Stanford, CA Mar. 2026
SITP Monday Colloquium
Large fluctuations in the large-N limit
5. OIST, Okinawa, Japan Mar. 2026
Qubits and Spacetime Unit Group Seminar
Generalized Entropy is von Neumann Entropy
6. University of Michigan, Ann Arbor, MI Mar. 2026
LITP Workshop on Quantum Black Holes
Large fluctuations in the large-N limit
7. Institute for Advanced Study, Princeton, NJ Dec. 2025
Workshop on Quantum Aspects of Black Holes and Spacetime
Emergent Mixed States for Baby Universes and Black Holes
8. Steklov Mathematical Institute, Moscow, Russia Nov. 2025
Frontiers in Holography Workshop
Emergent Mixed States for Baby Universes and Black Holes
9. Massachusetts Institute of Technology, Cambridge, MA Nov. 2025
String/Gravity Theory Seminar
Stringy algebras, stretched horizons, and quantum-connected wormholes
10. Brandeis University, Waltham, MA Oct. 2025
Quantum/Gravity Seminar
Emergent Mixed States for Baby Universes and Black Holes
11. University of Massachusetts, Amherst, MA Oct. 2025
Amherst Center for Fundamental Interactions Seminar
Emergent Mixed States for Baby Universes and Black Holes
12. Institute for Advanced Study, Princeton, NJ Oct. 2025
Quantum Aspects of Black Holes Meeting
Emergent Mixed States for Baby Universes and Black Holes
13. Institute for Advanced Study, Princeton, NJ Oct. 2025
Quantum Aspects of Black Holes Meeting
Discussion of the Lorentzian Gravitational Path Integral
14. Castello dei Principi Capano, Pollica, Italy Sep. 2025
Workshop on Universality in non-equilibrium quantum matter
An Optimal Bound on Long-Range Distillable Entanglement

15. Perimeter Institute, Waterloo, Canada Jun. 2025
 IQIG 2025
 Absolute Entropy and the Observer's No-Boundary State
16. Institute for Advanced Study, Princeton, NJ Jun. 2025
 Quantum Aspects of Black Holes Meeting
 Absolute Entropy and the Observer's No-Boundary State
17. Princeton University, Princeton, NJ Mar. 2025
 PCTS Year End Celebration
 Comments on the identity matrix
18. Texas Tech, Lubbock, TX Apr. 2025
 Quantum Information and Computing Seminar
 An optimal bound on long-range distillable entanglement
19. Brown University, Providence, RI Apr. 2025
 Brown Theoretical Physics Center IDEA Seminar Series
 Entropy and the Hartle-Hawking State
20. Cornell University, Ithaca, NY Feb. 2025
 LEPP Theory Seminar
 Aspects of the Hartle-Hawking State
21. Institute for Advanced Study, Princeton, NJ Feb. 2025
 Physics Group Meeting
 An Energy Efficient way to send Qubits into Black Holes
22. University of Massachusetts, Amherst, MA Jan. 2025
 NE Gravity Workshop
 Black Hole Entropy is von Neumann Entropy
23. Institute for Advanced Study, Princeton, NJ Nov. 2024
 Quantum Aspects of Black Holes Meeting
 Vacua and Infrared Tails in de Sitter
24. Trinity College, Dublin, Ireland June. 2024
 HMI Workshop: CFT and Holography for Heavy and Thermal States and Black Holes
 Black Hole Entropy is von Neumann Entropy
25. University of Toronto, Toronto, Canada May. 2024
 Theoretical High-Energy Physics Seminar
 Algebraic Observational Cosmology
26. University of Chicago, Chicago, IL Mar. 2024
 Quantum Aspects of Cosmology Workshop
 Algebraic Observational Cosmology
27. Institute for Advanced Study, Princeton, NJ Mar. 2024
 Quantum Aspects of Black Holes Meeting
 Algebraic Observational Cosmology
28. Caltech University, Pasadena, CA Mar. 2024
 High Energy Theory Seminar
 Algebras and entropies for quantum field theory, black holes, and inflationary cosmology
29. Institute for Advanced Study, Princeton, NJ Oct. 2023
 Physics Group Meeting
 Entropy differences in quantum field theory and a rigorous proof of the Bekenstein bound
30. KTH Royal Institute of Technology, Stockholm, Sweden May 2023
 Complex Systems and Biological Physics Seminars
 Horizons as eavesdroppers: decoherence from soft radiation

31. Institute for Basic Science, Daejeon, Republic of Korea
Center for Theoretical Physics of Complex Systems Seminar
Non-Hermitian Hamiltonians Violate the Eigenstate Thermalization Hypothesis
May 2023
32. Purdue University, West Lafayette, IN
Department of Physics & Astronomy Seminar
Horizons as eavesdroppers: decoherence from soft radiation
Apr. 2023
33. Oxford University, Oxford, UK
Sondhi Group Meeting
Horizons as eavesdroppers: decoherence from soft radiation
Apr. 2023
34. University of California Berkeley, Berkeley, CA
Berkeley Center for Theoretical Physics String Seminar
Horizons as eavesdroppers: decoherence from soft radiation
Apr. 2023
35. Stanford University, Stanford, CA
Stanford Institute for Theoretical Physics Seminar
Horizons as eavesdroppers: decoherence from soft radiation
Apr. 2023
36. City College of the City University of New York, New York, NY
Theoretical Physics Seminar
Horizons as eavesdroppers: decoherence from soft radiation
Mar. 2023
37. Institute for Advanced Study, Princeton, NJ
Quantum Aspects of Black Holes Meeting
The Information-Disturbance Tradeoff and Horizons as Eavesdroppers
Mar. 2023
38. University of Pennsylvania, Philadelphia, PA
High Energy Theory Seminar
Rényi mutual information in quantum field theory and gravity
Feb. 2023
39. Southeast University, Nanjing, China
2022 Forum for Young Scholars in Mathematics and Mathematical Physics
Rényi mutual information in quantum field theory
Dec. 2022
40. Institute for Advanced Study, Princeton, NJ
High Energy Theory Seminar
Quantum Information before the Page Time
Sep. 2022
41. Princeton University, Princeton, NJ
Princeton Center for Theoretical Science Annual Retreat
Distinguishability and its use: from spin chains to black holes
Sep. 2022
42. University of Amsterdam, Amsterdam, Netherlands
Institute of Physics String Theory Seminar
On the Information Content of Black Hole Radiation
Mar. 2022
43. Steklov Mathematical Institute, Moscow, Russia
Frontiers in Holography Workshop
Distinguishability in Random States, Eigenstates, and Gravity
Dec. 2021
44. Institute for Research in Fundamental Sciences, Tehran, Iran
IPM Holography Virtual Seminar
Distinguishability in Random States, Eigenstates, and Gravity
Nov. 2021
45. University of Illinois, Urbana Champaign, IL
Mathematical and Theoretical Physics Seminar
Distinguishability in Random States, Eigenstates, and Gravity
Oct. 2021
46. Harvard University, Cambridge, MA
Vishwanath Group Meeting
Distinguishability of random states and the subsystem ETH
Jul. 2021

47. Strings 2021 Gong Show, São Paulo, Brazil Jun. 2021
Distinguishing Random States and Black Holes
48. Yukawa Institute for Theoretical Physics, Kyoto, Japan Feb. 2021
Entanglement Meeting
Entanglement Negativity Spectrum of Random Mixed States
49. University of Illinois Urbana Champaign, Champaign IL Oct. 2020
Condensed Matter-AMO Journal Club
Universality of Entanglement Dynamics in Integrable and Chaotic Quantum Systems
50. Massachusetts Institute of Technology, Cambridge, MA Aug. 2020
CTP Group Meeting
 $T\bar{T}$, the entanglement wedge cross section, and the breakdown of the split property
51. Stanford University, Stanford, CA Jun. 2020
SITP $T\bar{T}$ Group Meeting Seminar
 $T\bar{T}$, the entanglement wedge cross section, and the breakdown of the split property
52. Colgate University, Hamilton, NY Jun. 2020
Physics & Astronomy Seminar
Entanglement, Gravity, and the Holographic Principle
53. Massachusetts Institute of Technology, Cambridge, MA Apr. 2020
Condensed Matter Theory Seminar
Universality of Entanglement Dynamics
54. Albert Einstein Institute, Potsdam, Germany Dec. 2019
Gravity, Quantum Fields, & Information Seminar
Derivation of holographic negativity in $\text{AdS}_3/\text{CFT}_2$
55. AMS Special Sessions on Analysis and Geometry of Fractals, Riverside, CA Nov. 2017
Strong shape theorems in cellular automata models on fractal graphs

Teaching Experience

- Prison Teaching Initiative Instructor* 2023-Present
Princeton University, Princeton, NJ
- **PHYS-130: *Astronomy*** (Fall 2025) East Jersey State Prison
 - **PHYS-130: *Astronomy*** (Spring 2025) Northern State Prison
 - **PHYS-130: *Astronomy*** (Fall 2024) East Jersey State Prison
 - **MATH-110: *Statistics*** (Spring 2024) South Woods State Prison
 - **MATH-015: *Basic Mathematics*** (Fall 2023) South Woods State Prison
- Prison Teaching Initiative Course Coordinator* 2024-2025
Princeton University, Princeton, NJ
- **PHYS-130: *Astronomy*** (Spring 2025)
 - **PHYS-130: *Astronomy*** (Fall 2024)
- Guest Lecturer* 2024
Princeton University Department of Physics, Princeton, NJ
- **PHY 101: *Introductory Physics I***. Lecture on “Vibrational Motion and Mechanical Waves.”
- Tyler School of Art and Architecture, Philadelphia, PA
- **ART 3505: *Color***. Lecture on “The Physics of Light and Color.”
- Princeton University Teaching Transcript Program* 2022-2024
The McGraw Center for Teaching and Learning, Princeton University, Princeton, NJ

- Includes five pedagogy workshops, guest lecturing with classroom observation and analysis, and the development of an original syllabus. Completed Fall 2024.

Reading Course Instructor 2019

University of Chicago, Chicago, IL

- Designed and taught reading course on “*Quantum Information and Quantum Chaos*” to undergraduate physics majors at University of Chicago.

Splash! Chicago Teacher 2018

University of Chicago, Chicago, IL

- Designed and taught a (5 week) course “*Introduction to Quantum Mechanics*” to local high school students.
- Designed and taught a (1 day) course “*Introduction to Quantum Mechanics and Quantum Computing*” to local high school students.

Graduate Teaching Assistant 2017 - 2021

Department of Physics, University of Chicago, Chicago, IL

- **PHSC 116:** *Physics for Future Presidents: Fundamental Concepts*,
- **PHSC 117:** *Physics for Future Presidents: Energy & Sustainability*,
- **PHYS 121-123:** *General Physics I-III*
- **PHYS 133:** *Waves, Optics, & Heat*
- **PHYS 142:** *Honors Electricity & Magnetism*
- **PHYS 341:** *Graduate Quantum Mechanics I* (Grader)
- **PHYS 484:** *String Theory II* (Grader)

Undergraduate Teaching Assistant and Tutor 2015-2017

Department of Physics & Astronomy, Colgate University, Hamilton, NY

- **PHYS 232:** *Introduction to Mechanics*
- **CORE 101:** *Energy and Sustainability*
- **PHYS 111:** *Fundamental Physics I*
- **ASTR 102:** *Stars, Galaxies, and the Universe*

Mentorship

Research Advisor

Paris Zhang - 3rd-4th year undergraduate student at University of California, Santa Barbara (2026-Present)

Badis Labbedi - 2nd-3rd year undergraduate student at University of Chicago (2026-Present)

Bowen Ouyang - 4th year undergraduate student at Shanghai Jiao Tong University (2025-Present)
Next stop: Physics PhD Student at Brandeis University

Hyaline Chen - 3rd-4th year undergraduate Physics student at Princeton University (2024). Resulting publication. Winner of PACM Undergraduate Certificate Prize for Best Research Project
Next stop: Physics PhD Student at Harvard University

Chang-Han Chen - 4th year undergraduate Physics student at Massachusetts Institute of Technology (2020-2021). Senior Thesis
Next stop: Physics PhD Student at University of California, Berkeley

**Professional
Activities**

Journal Referee

Physical Review Letters, Physical Review E, Nature Physics, Journal of High Energy Physics, SciPost Physics, European Physical Journal Plus, European Physical Journal C, Journal of Mathematical Physics, Quantum

Organizer

Institute for Advanced Study/Princeton Center for Theoretical Science Workshop: “Workshop on Quantum Aspects of Black Holes and Spacetime” (Dec 2025)

Princeton Center for Theoretical Science Workshop: “Random Physics” (May 2024)

Princeton Center for Theoretical Science Lunch Seminars (Fall 2023-Spring 2024)

Princeton Center for Theoretical Science Workshop: “Quantum Information, Dynamics and Ergodicity: From Many-Body Systems to Gravity” (Feb.-Mar. 2023)

Kadanoff Center for Theoretical Physics Journal Club (University of Chicago)

Kadanoff Center Group Meeting → Theory Group Meeting (University of Chicago)
